FIRST YEAR.

WORK EXPERIENCE

ENE DEI — B2B Sourcing & Commerce Platform | Independent

Full-Stack Developer | Full-time Remote | Aug 2026 - Present

Go · Python · PostgreSQL · Redis · Next.js · SEO

- Built B2B sourcing & procurement system to automate manual inventory and order workflows.
- Added secure pricing rules, real-time analytics and white-label SaaS support for client branding.

IMAMM HELP — AI Knowledge Platform | M.A. International

Full-Stack Developer | Full-time Remote | Feb 2026 - Mar 2026

Python · OpenAI · React · SEO

- Built AI assistant to answer domain-specific reference questions and cut manual research workload.
- Tuned AI prompts and response behavior, achieving 95% answer accuracy in source-referenced Islamic Q&A.

FLUTTER TASK MANAGER | M.A. International

Flutter & Backend Developer | Full-time Remote | Oct 2025 - Dec 2025

Flutter · Dart · Riverpod · Python

- Built team operations app for secure task distribution and better workflow efficiency.
- Optimized Flutter cross-device performance, implemented privacy controls and backend task tracking.

CREATOR PORTFOLIO — Website & Admin Panel | Freelance

Full-Stack Developer | Freelance | Aug 2025 - Sep 2025

Next.js

- Built portfolio site for a 1M-subscriber YouTube creator to showcase work and attract brand partnerships.
- Created no-code admin panel, letting the creator update content without developer help.
